All courses now available online

From the Director's desk.
Hello everyone!

Another quarter is over - July to September 2020. Half the financial year is over. All of us are now gearing up for the second half, to finish our race with the set targets!

The situation of Covid-19 continues. Now the outlook has changed. It's now living with Covid-19. I hope this is an interim phase, till some game changer like the vaccine comes up.

We too have adapted to the situation. The office is fully operational, working as per regulations. The quarter kept us busy fairly well. Online training programs continued. With all rules followed and full caution, some work was conducted in the office for candidates. Some good orders for online training from Indonesia and Thailand are under execution.

Consultancy business continued with again some good number of ASME audits. We noticed a positive upswing in the Inspection and NDT orders. The economy seems to be rising for good.

The AWS CWI training and exam was conducted in September. This was after a long gap due to Covid-19. The exam was administered by IQS examiners, for the first time.

'Online' seems to be the future now. If not all, I envisage a good deal of work will be carried out online, be it Training or Consultancy. The world is getting ready for online inspection too. Let us see how it comes out.

Our drive of developmental work continues, now with renewed vigour, as the whole approach to customer service is changing.

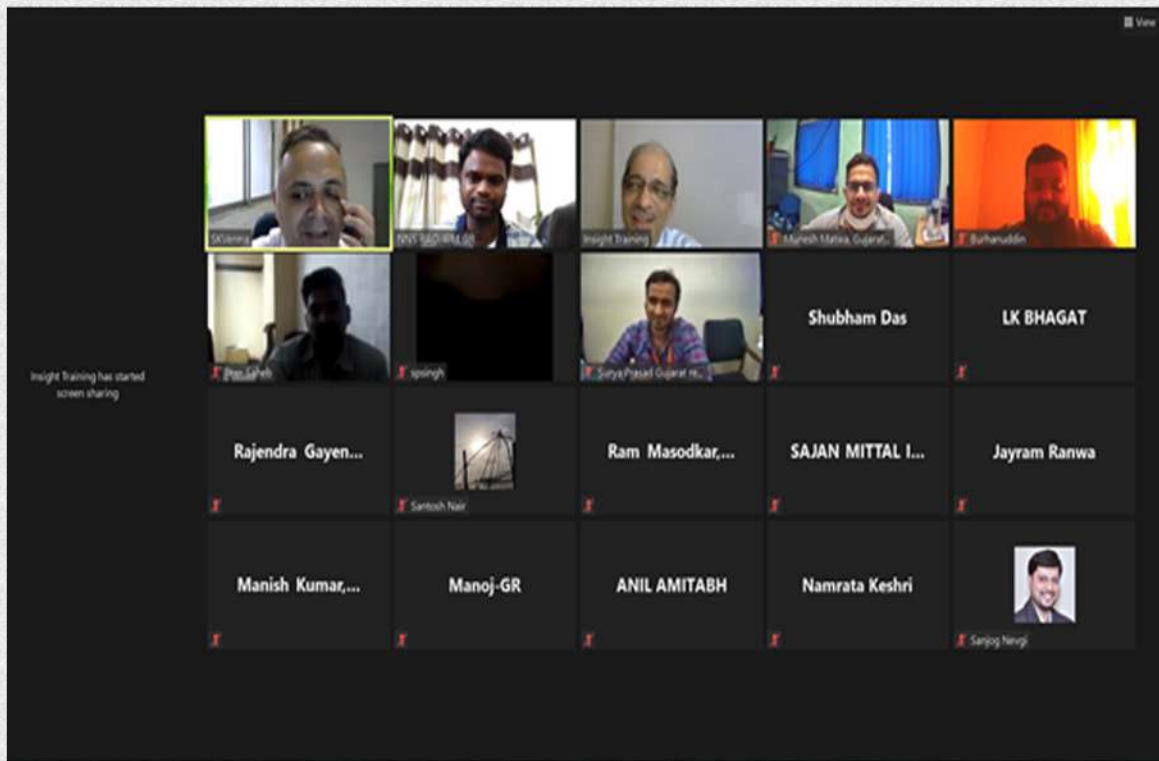

As usual, we look forward to receiving your suggestions, grievances, ideas and other feedback.

Anticipating your continued support all along!

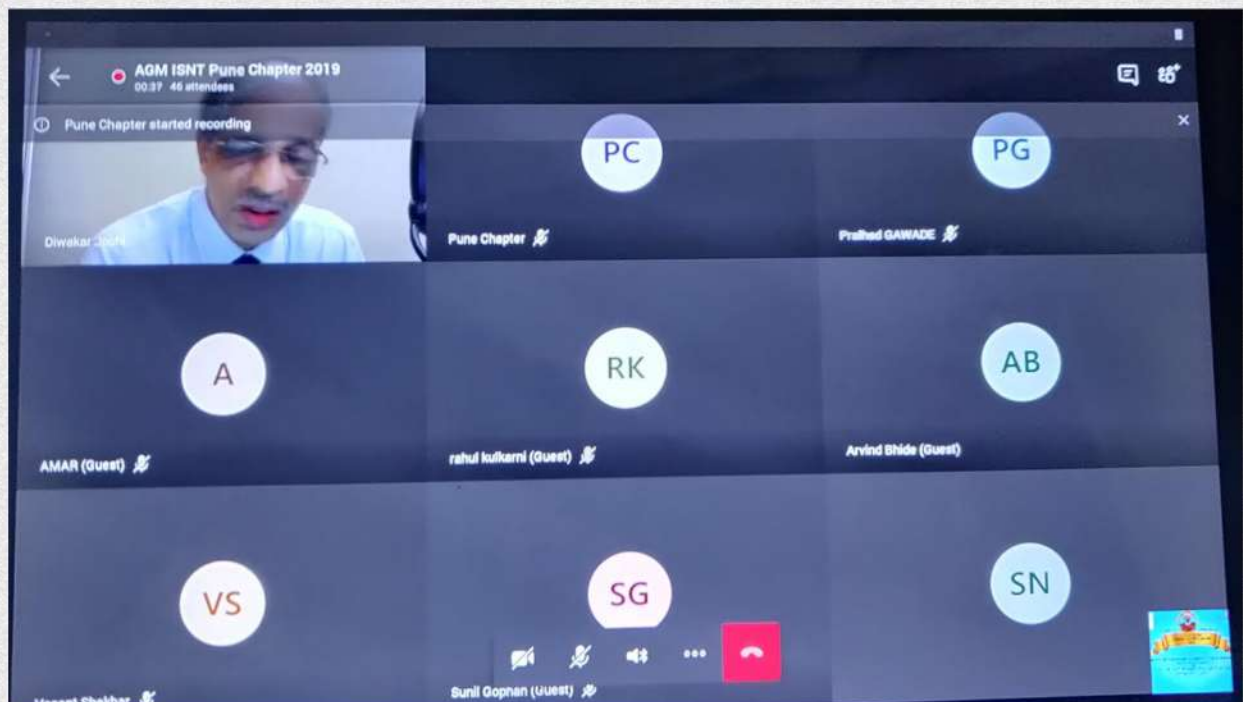

Be safe, be healthy!

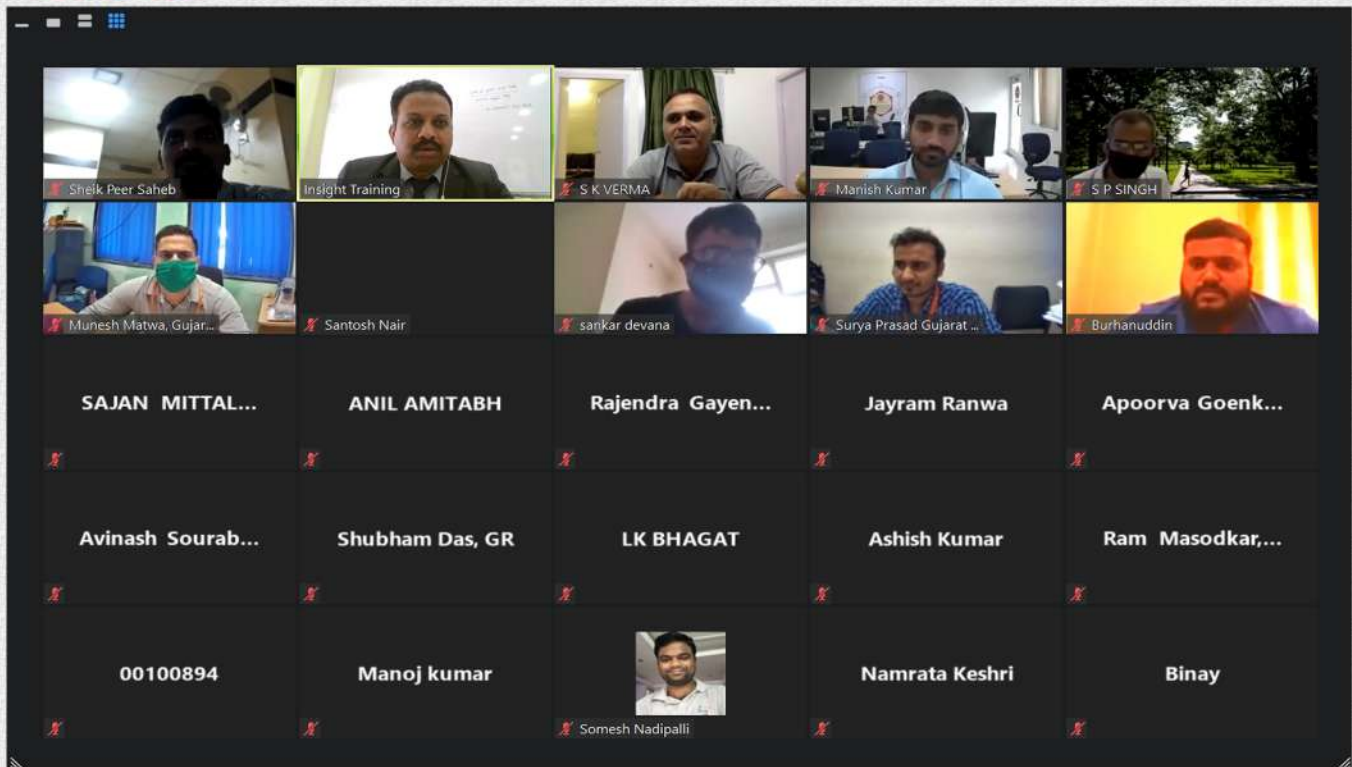

Diwakar Joshi.

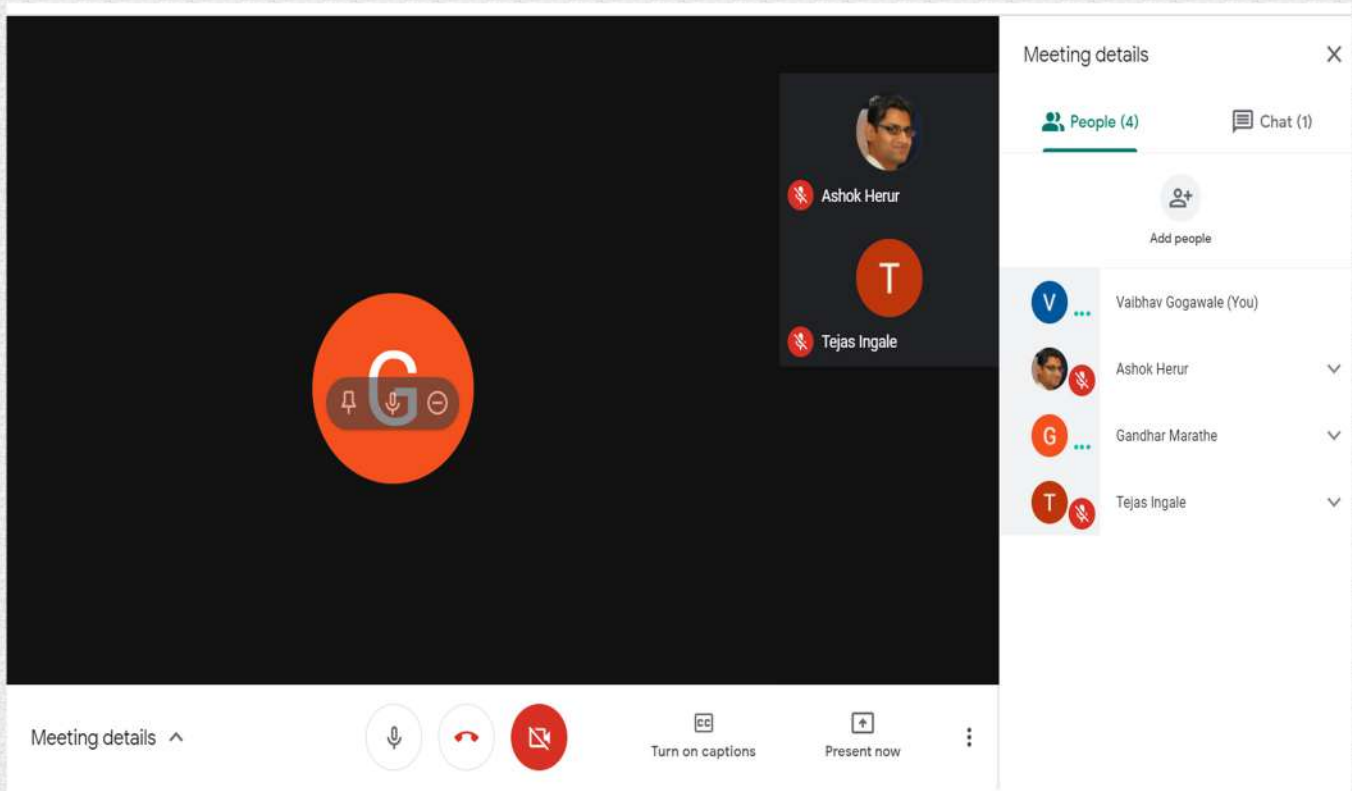

IQS conducted regular courses in IOCL, India. API 510 course conducted by Mr. Diwakar Joshi from 07th September to 12 th september 2020
