INSIGHT
QUALITY SERVICES

27th ANNIVERSARY

Bulletin January 2021 !

DIRECTOR'S MESSAGE :

Dear All,
At the start let me wish you all a very Happy New year!

The new year has come with a lot of hopes after a very challenging year of COVID-19 is over. Things have started opening and we have started working at a controlled scale. All the precautions and care specified by the regulatory requirements are taken and the activity of physical training is started.
Our Online Training continues with the same pace for the Indian and International customers.

Our IMS and ASME audits are continued mostly on online mode and now we are geared up for few Inspection activities conducted online. The customers are getting tuned for online training and we have developed our methodology to overcome some of the hardware and software problems in the same.

The NDE 2020 national conference of ISNT was conducted from 17th to 19th Dec, 2020 and IQS took a leading role in conducting the session on Training and Certification in the seminar which covered all Certification schemes in NDE.

Many online training programs such as API 510, API570, API571, Basic, ET L-III, NDT Level II courses were conducted successfully with an encouraging feedback from our candidates and the customers / companies. We have started Training activity for our new customer in Brunei.

Still, we have to wait for the situation to improve and shall keep moving towards accomplishment of our goals with the same enthusiasm.
Our customer is always our focus and we are joining hands with them to ensure that the business wheels are back on the track!

Your continued support is always our motivation !!

Mr. Diwakar Joshi
