**“IT IS GOOD TO HAVE EDUCATION, IT IS BETTER TO HAVE EXPERIENCE,
BUT IT IS ESSENTIAL TO HAVE TRAINING!”**

About us

Insight Quality Services is a premier institute in the field of Training, Consultancy, Inspection & NDT services.

Established in 1994, IQS is an internationally reputed organization that strives to provide services that exceed the customers' expectations. A wide experience of many years, hands-on working style and a series of added qualifications have been the focus of our team members in training. We are happy to announce that we have just completed 25 years of successful operation.

We take pleasure in communicating that we are now an International Agent of AWS!

Our 25 years of experience in Training was the key factor in getting us this agency. We were already conducting training programs on welding, our own qualification. We were geared up with trainers, samples, instruments and methodology with this previous welding training experience. Becoming an AWS agent has given us a further boost in serving the industry. We are further equipped, since last year, with the help of AWS with all the essentials required for the training and examination. Needless to say, as we have been doing for all our training courses, we will go one step beyond your expectations in your learning experience!

Welding Consultancy and Inspection are two other streams of our organization which keep our faculty in touch with the field and the latest codes, standards and hands-on practices. This enables us to present the latest field experience and case studies for the benefit of the students.

AWS Certified Welding Inspector Program

Welding is the most important joining process. The integrity of any product depends on the weld quality. Welding inspection is of utmost importance, and a certified welding inspector is the right person to carry out this inspection. Being rightly methodic, the AWS welding inspector program contributes largely in making you a knowledgeable and expert welding inspector. The industry is looking for not just certification, but expertise in your work. This program hones your skills to a degree required by the demanding market, and opens up new avenues for you.

The course is designed to cover all the requirements for becoming a knowledgeable and competent welding inspector.

Course objectives - AWS (American Welding Society), the leading authority in the field of welding inspection, has demonstrated their commitment to bring industry the best and most reliable educational certification programs tailored specifically for various circumstances and needs for the job. The scheme focusses on making the candidate gain knowledge on topics of Welding Metallurgy, Welding Symbols & Geometry, Welding Imperfections, Welding & Cutting Processes, Visual Inspection and application of various codes. The course focusses on making the candidate a knowledgeable and expert welding inspector.
