

# GUIDED TOUR OF ASME CODES

With Specific Focus on Edition 2025

Covers ASME Sect. VIII Div.1, Sect. IX, Sect. V, Sect. II A & C

## ABOUT THE COURSE

This training provides a structured overview of key **ASME codes**—**Section II** (Parts A & C), **Section V**, **Section VIII Div. 1**, and **Section IX**. It helps participants understand code objectives, contents, and both stated and implied requirements, including the distinction between mandatory, recommended, and optional provisions. Emphasis is placed on interpreting and applying the codes in both letter and spirit. Complex clauses are explained in a clear, practical manner using real-life examples and case studies. No prior background in ASME codes is required, making this course ideal for professionals across design, fabrication, inspection for manufacturing and oil and gas industries.
