## API Preparatory Hybrid Training

Insight Quality Services (IQS) has started a Hybrid API Preparatory Training Program. A hybrid classroom, sometimes referred to as a hyflex classroom, is a learning environment which includes a mix of students who are present in the physical classroom and participants who join the class virtually.

In the simplest of terms, hybrid learning can be defined as a tutor taking both online and offline classes simultaneously for the candidates. It mostly depends on the candidates to choose the way they wish to attend the classes. We have refined these programs every time and eventually have built a solid foundation to conduct these programs with excellent training material developed by us, qualified faculty, thousands of practice questions, etc.

Our Hybrid classroom setup is the latest in technology and satisfies the requirements of both types of candidates.

We offer

- Digital Board
- A movable camera always focused on the faculty
- See all PPT & PDF on the screen
- Online Computer Based Mock-up Exam "Open Book & Closed Book" for better result

We all know that the American Petroleum Institute (API) has started Online Examinations March 2014 onwards. We, at Insight Quality Services, have taken an initiative in giving you a similar experience. For this, we developed a similar software which simulates the final online examination. You can practice online mock-up examination in our classroom almost like the final examination of API.

For your convenience, and to simulate the conditions as well, we have equipped our classroom with multiple computers.

We have already successfully completed more than a Hundred batches of API 510, API 570, API 653, API 580, API 571, API 577, API SIFE, API SIRE, API 1169, API TES training programs and examinations from March 2014 with the use of this state-of-the-art facility. The software we developed gives you the facility and convenience of taking the online mock-up exam from your home....!

We are proud to say that we are the first to introduce this facility in India! We have provided this facility to all our students March 2014 onwards, free of charge, without any hike in the course fees.

We are committed to give you more and better. What drives us is your support and faith. We hope this will continue in the coming years too.
