

BULLETIN

JULY 2022

Dear All,

Greetings!

I hope everyone is in good health and safe!

The first quarter of this financial year is completed. Our team is getting engaged with many national and international projects.

All of us are feeling relieved with the relaxation in various restrictions due to the COVID era. Especially, international activities are getting more geared up with relief on travel restrictions. Though, at some places in the world the threat of this virus is not over, we can say that the situation is much better than of the last two years and we are back on the job with new zeal!

This quarter was a better one. The training department has announced and completed some very informative one day programs which are well received by the candidates.

In this financial year we have announced a series of free webinars!

The invited Guest Speakers and our own in-house experts are taking up the topics which are discussed and proposed by our Training and Consultancy clients.

We have received an overwhelming response for these webinars from our customers and contacts. Participants from more than 15 countries have attended these webinars.

Two back-to-back outstanding and successful webinars full of interaction and knowledge for candidates were completed.

The contact training in Qatar for 3 API programs was started at the end of June.

The newly added Ultrasonic flaw detector, Digital board and defective samples for Training are upgrading our training facility.

Various consultancy projects related to ASME U stamps were completed.

Consultancy services for ISO 1090-1 audit successfully completed for our esteemed customer by our consultancy Team.

NDT services are continuing with their current and upcoming projects.

We are seeing an increase in the work volume in all fields and planning our work force and energy to ensure timely Quality support to our esteemed customers!

We thank our customers for their all-time motivation and trust in us!

Thanks, and assuring you our best services to all times!

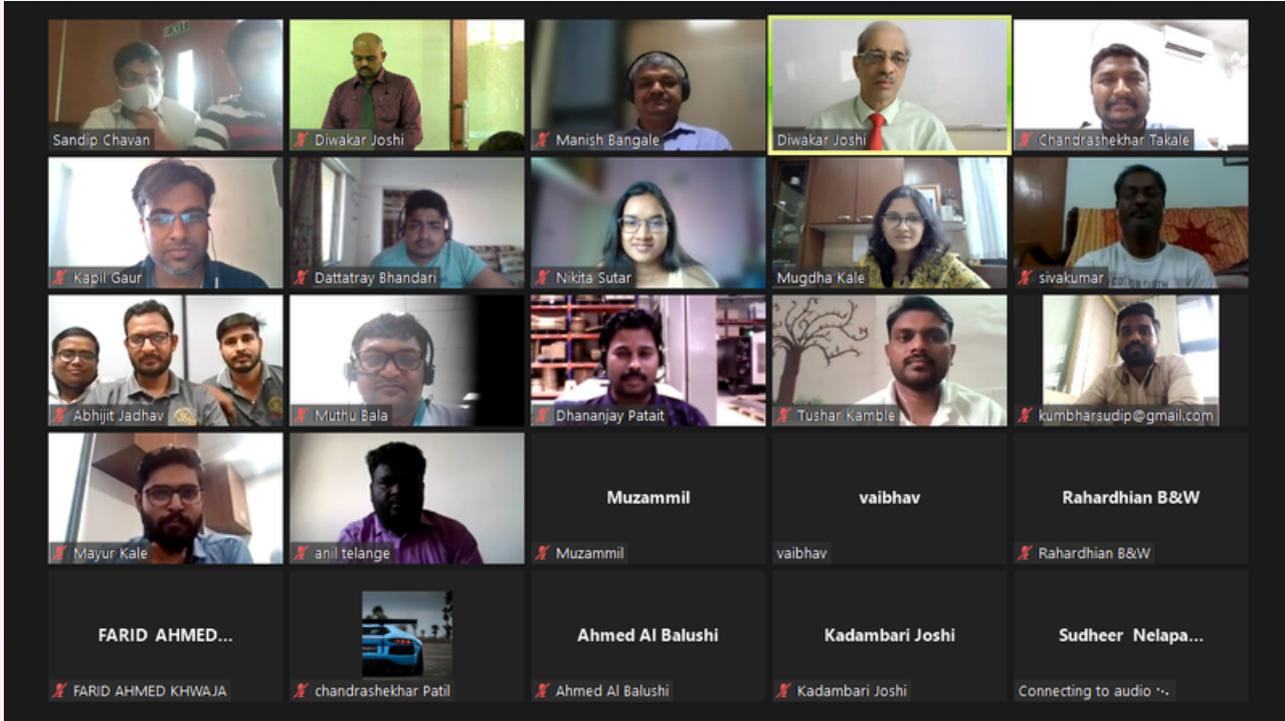

Diwakar Joshi

New financial year started with a BANG

As outstanding program on 'How to review WPS, PQR and WPQ as per ASME and ISO Standards' by Mr. Vaibhav Gogawale on 1st April 2022. For the 1st time IQS has used Hybrid mode i.e. **Online + Offline** at a same time. More than 40 candidates joined this program through hybrid mode.

Online

Offline

We are happy to announce that IQS has started a series of free webinars! In this series, we invite Guest Speakers and our own in-house experts to take up topics that are suggested by our Training and Consultancy clients.

Here, you can get difficult things simplified by ultimate subject experts. These webinars are highly interactive and strive to add value to our customers.
